SENSORSWAB® ULTRA

Safely Removes Dust, Dirt, Oil, and Debris

SEE YOUR CAMERA'S USER GUIDE ON
HOW TO ACCESS THE SENSOR

1. Remove the lens to expose the sensor
2. Safely blow off any loose dust or dirt
3. Dispense several drops of **Optic Cleaning Fluid** onto a new swab
4. Firmly drag one side of the swab across the sensor and then back in the opposite direction (while flipping to the clean side of the swab)
5. Discard the used swab after use

Repeat steps 3-5, if necessary, using a new
SENSORSWAB® ULTRA
